AI won't replace you — but someone using AI well might. This pack turns ChatGPT (or any AI chatbot) into your personal team of writers, marketers, and assistants.

How to use this pack

1. Open ChatGPT, Claude, Gemini, or any AI chat tool (the free versions work).
2. Find a prompt for your task and **copy it**.
3. Replace the **[YELLOW BRACKETS]** with your details.
4. Paste, send, then refine with follow-ups like "make it shorter" or "more casual".

THE GOLDEN RULE OF PROMPTING

Give the AI a **role**, **context**, and a clear **output format**. Every prompt here already does this for you — that's why they work.

Who this is for

- Freelancers who want to deliver faster and win more clients

Land Clients & Close Deals

1 The Irresistible Cold Pitch

SALES

Turns a blank page into a personalized pitch that gets replies.

You are an expert B2B copywriter. Write a short, friendly cold outreach message to [TYPE OF BUSINESS]. I offer [YOUR SERVICE]. Mention one specific problem they likely have, offer one small free value upfront, and end with a low-pressure question. Keep it under 90 words, no jargon.

2 Proposal in 60 Seconds

SALES

Generates a clean, professional project proposal instantly.

Act as a freelance consultant. Create a project proposal for [CLIENT/PROJECT]. Include: overview, scope of work, timeline, deliverables, pricing options (3 tiers), and next steps. Tone: confident but approachable.

3 Objection Crusher

SALES

Prepares you for the "it's too expensive" moment.

A potential client said: "[THEIR OBJECTION]". Give me 3 calm, non-pushy responses that reframe the value and move the conversation forward. Include one question I can ask back.

PRO TIP

Always add "ask me 3 questions before answering" to any prompt when you want the AI to tailor the output to your exact situation.

Content That Goes Viral

4 30 Days of Content Ideas

CONTENT

Never stare at a blank content calendar again.

You are a viral social media strategist. Give me 30 content ideas for [NICHE] on [PLATFORM]. Mix formats: hooks, tips, myths, stories, and "how-to". For each, write a scroll-stopping first line.

5 The Hook Machine

CONTENT

The first line decides if people keep watching/reading.

Write 10 different scroll-stopping hooks for a post about [TOPIC]. Use curiosity, bold claims, and relatable pain points. Keep each under 12 words.

6 Long-Form to Short-Form

CONTENT

Turn one piece of content into a week of posts.

Here is my blog post / video script: [PASTE TEXT]. Break it into 7 short social posts, each with a hook, 2-3 value lines, and a call to action. Keep my voice.

Email & Outreach

7 The Welcome Sequence

EMAIL

Build trust with new subscribers on autopilot.

Write a 3-email welcome sequence for new subscribers to [YOUR BRAND/NEWSLETTER]. Email 1: warm welcome + quick win. Email 2: my story + why I do this. Email 3: soft pitch for [OFFER]. Friendly, no fluff.

8 Re-Engage Cold Leads

EMAIL

Wake up subscribers who stopped opening.

Write a short "we miss you" email to re-engage subscribers who haven't opened in 60 days. Include a curiosity subject line and one clear reason to come back. Under 120 words.

9 Subject Line A/B Tester

EMAIL

Better subject lines = more opens = more sales.

Write 10 subject lines for an email about [TOPIC]. Mix curiosity, urgency, benefit, and personal styles. Mark which 2 you'd test first and why.

STACK THEM

Chain prompts: generate the email, then say "now write 5 subject lines for this" and "shorten it for mobile". The AI keeps context.

Marketing & Ads

10 The AIDA Ad Writer

ADS

Proven copywriting formula, done for you.

Write ad copy for [PRODUCT] using the AIDA formula (Attention, Interest, Desire, Action). Target audience: [AUDIENCE]. Give me 3 versions of different lengths.

11 Landing Page Copy

ADS

A full page of conversion copy in one go.

Write landing page copy for [PRODUCT/SERVICE]. Include: headline, subheadline, 3 benefit bullets, social proof section, FAQ (5 Qs), and a strong CTA. Persuasive, clear, benefit-focused.

12 Customer Avatar Builder

ADS

Know exactly who you're selling to.

Create a detailed customer avatar for [PRODUCT]. Include demographics, goals, fears, daily frustrations, where they hang out online, and the exact words they'd use to describe their problem.

Productivity & Automation

13 Inbox to Action Plan

PRODUCTIVITY

Turn a messy email into clear next steps.

Here's an email I received: [PASTE EMAIL]. Summarize it in 2 lines, list any action items with deadlines, and draft a professional reply.

14 Meeting Notes Magic

PRODUCTIVITY

Raw notes become a tidy, shareable summary.

Turn these rough meeting notes into a clean summary with sections: Decisions Made, Action Items (with owners), and Open Questions. Notes: [PASTE NOTES]

15 Weekly Planner

PRODUCTIVITY

Get organized in seconds, not hours.

I have these goals this week: [LIST GOALS]. Build me a realistic day-by-day plan, batching similar tasks, with buffer time and one "most important task" per day.

PRIVACY REMINDER

Don't paste sensitive client data, passwords, or private personal info into public AI tools. Use placeholders or anonymize first.

Digital Products & Selling

16 Product Idea Generator

PRODUCTS

Find a digital product people actually want.

I have skills in [YOUR SKILLS] and my audience is [AUDIENCE]. Suggest 10 digital product ideas I could create and sell (ebooks, templates, courses, etc.). For each, give a one-line pitch and a price range.

17 Sales Page That Converts

PRODUCTS

The exact copy that turns visitors into buyers.

Write a sales page for my digital product: [PRODUCT + WHAT'S INSIDE]. Include a hook, the problem, the solution, what's inside (bullets), who it's for, price justification, guarantee, and a final CTA.

18 Pricing Strategist

PRODUCTS

Stop guessing what to charge.

My product is [DESCRIBE] for [AUDIENCE]. Suggest a 3-tier pricing structure (good/better/best), what to include in each, and one upsell idea.

Learning & Research Fast

19 Explain Like I'm 5

LEARNING

Understand any complex topic in minutes.

Explain [COMPLEX TOPIC] like I'm 5, then like I'm 15, then at an expert level. Use a simple analogy for each.

20 The 7-Day Skill Plan

LEARNING

A structured path to learn anything fast.

I want to learn [SKILL] in 7 days, studying 1 hour a day. Build me a day-by-day plan with free resources, one practice task per day, and a mini-project at the end.

21 Summarize & Quiz Me

LEARNING

Actually remember what you read.

Summarize this in 5 key points: [PASTE TEXT]. Then quiz me with 3 questions to test if I understood it.

Prompt Power-Ups

Add these phrases to ANY prompt to instantly get better results. These are the multipliers the pros use.

Get tailored output

"Ask me clarifying questions before you answer."

Improve quality

"Give me your first draft, then critique it and write a better version."

Match your voice

"Here are 2 samples of my writing — copy this tone: [paste]."

More options

"Give me 5 wildly different angles, not variations of the same one."

Stay concise

"Be concise. No intro, no summary, just the answer."

Think first

"Think step by step before giving the final answer."

THE META-PROMPT

Stuck? Ask the AI to build the prompt for you: *"Act as a prompt engineer. Write me the perfect prompt to [your goal]."* Then run that prompt.

***You don't need to be an expert.
You just need the right prompt.***
